description generative ai and agentic ai are reshaping how we interact with data enabling intelligent systems that can reason generate and autonomously act across multiple modalities from text and images to voice and structured data these technologies are increasingly essential in enterprise and research applications today this book offers a complete roadmap to mastering multimodal generative ai and agentic ai systems it covers foundational concepts vision language models retrieval augmented generation human in the loop and multi agent workflows text to sql ocr and hybrid ai integrations each chapter combines theory practical guidance code implementations and real world case studies helping readers understand architectures

pipelines and production grade deployments by the end of this book readers will be capable of designing implementing and scaling robust multimodal and agentic ai systems they will gain hands on expertise in reasoning generation retrieval agent orchestration and ops equipping them to build production ready ai applications and excel in their roles what you will learn understand multimodal generative ai and agentic ai systems architecting rag vector dbs embeddings cross encoders and core agentic planning build retrieval augmented generation workflows efficiently implement human in the loop and multi agent pipelines apply text to sql for real time data queries develop ocr solutions for images and documents integrate traditional ml models with genai workflows deploy production grade ai with monitoring and observability who this book is for this book is for ai enthusiasts data scientists ml engineers and software developers with foundational python and ml knowledge it is ideal for tech leads researchers and enterprise architects aiming to build and scale multimodal production grade agentic ai systems

table of contents
1 introducing new age generative ai
2 deep dive into multimodal systems
3 implementing unimodal local genai system
4 implementing unimodal api based genai systems
5 implementing agentic genai systems with human in the loop
6 two and multi stage genai systems
7 building a bidirectional multimodal retrieval system
8 building a multimodal rag system
9 building genai systems with reranking
10 retrieval optimization for multimodal genai
11 building multimodal genai systems with voice as input
12 advanced multimodal genai systems
13 advanced multimodal genai systems implementation
14 building text to sql systems
15 agentic text to sql systems and architecture decision making
16 genai for extracting text from images
17 integrating traditional ai ml into genai workflow
18 llm operations and genai evaluation techniques

the international congress of linguists icl takes place every five years it is the meeting where the world s leading linguists present their research and discuss the progress of their work and the state of their profession 21st icl poznań 2024 is a highlight in this series in twelve plenary lectures eighteen extensive sections and twelve focus streams two special panels and numerous workshops all theories and schools new developments and emerging sub disciplines of linguistics are discussed this book contains the plenary lectures and all introductions to the sections and focus streams that cover special areas of interest and thus offers the state of the art of linguistics in 2024

if science fiction stages the battle between humans and non humans whether alien or machine who is elected to fight for us in the classics of science fiction cinema humanity is nearly always represented by a male and until recently a white male spanning landmark american films from blade runner to avatar this major new study offers the first ever analysis of masculinity in science fiction cinema it uncovers the evolution of masculine heroes from the 1980s until the present day and the roles played by their feminine counterparts considering gender alongside racial and class

politics masculinity in contemporary science fiction cinema also situates filmic examples within the broader culture it is indispensable for understanding science fiction and its role in contemporary cultural politics

this book discusses the role of television drama series on a global scale analyzing these dramas across the americas europe asia australia and africa contributors consider the role of television dramas as economically valuable cultural products and with their depictions of gender roles sexualities race cultural values political systems and religious beliefs as they analyze how these programs allow us to indulge our innate desire to share human narratives in a way that binds us together and encourages audiences to persevere as a community on a global scale contributors also go on to explore the role of television dramas as a medium that indulges fantasies and escapism and reckons with reality as it allows audiences to experience emotions of happiness sorrow fear and outrage in both realistic and fantastical scenarios

about the book the articles collected in this volume which were originally presented in the panels on art and epigraphy at the 12th world sanskrit conference in helsinki finland illustrate the depth diversity and sophistication of recent studies in

this book is devoted to a systemic study of socio economic development risks arising in the decade of action as well as the prospects for risk management in support of sustainable development it aims to overcome fragmentary consideration of risks in the existing literature through their comprehensive coverage and the establishment of their interconnections from the perspective of sustainable development the novelty of this book is that it provides a comprehensive accounting of socio economic development risks in the decade of action as well as a rethinking of these risks from a sustainable development perspective the book also opens up the possibility of the most comprehensive and effective risk management in support of sustainable development the practical relevance of the book stems from the fact that it describes and discusses practical experience in detail and accompanies the theoretical material with numerous case studies including cases and frameworks with extensive coverage of international best practices the book is intended for scholars for whom the book forms a systemic scientific view of the risks of socio economic development arising in the decade of action as well as the prospects for risk management in support of sustainable development the book is also of interest to practitioners for whom it offers practical advice on risk management at all levels of the economy for sustainable development many examples from different countries make the book attractive to a wide international audience the book is of particular interest to readers from russia

many regard the ways in which paid work can be combined or balanced with other parts of life as an individual concern and a small rather self indulgent problem in today s world some feel that worrying about a lack of time or energy for family

relationships or friendships is a luxury or secondary issue when compared with economic growth or development in the business world and among many governments around the world the importance of paid work and the primacy of economic competitiveness whatever the personal costs is almost accepted wisdom profits and short term efficiency gains are often placed before social issues of care or human dignity but what about the impact this has on men and women s well being or the long term sustainability of people families society or even the economy drawing from interviews and group meetings in seven diverse countries india japan the netherlands norway south africa the uk and usa this book explores the multiple difficulties in combining paid work with other parts of life and the frustrations people experience in diverse settings there is a myth that work life balance can be achieved through quick fixes rather than challenging the place of paid work in people s lives and the way work actually gets done as well as exploring contemporary problems this book attempts to seed hope and new ways of thinking about one of the key challenges of our time

completely updated to cover apple s tiger operating system this visual task based reference includes step by step explanations of tiger s new spotlight feature which helps readers find anything on their mac instantly video ichat av enhanced mac capabilities and tiger s ultra useful desktop applications known as dashboard widgets veteran author langer uses plenty of visual aids and clear concise instructions
